

Review Result Announcement

Dear All,

Thank you for your interest in APSMER2019. More than 300 online submissions have been received, and the computer systems have assigned IDs accordingly. Furthermore, the system has excluded a number of repeated submissions and unqualified submissions, such as not written in English. All the proposals were peer-reviewed by an international review panel comprised of current APSMER board members. After some tough hard work, they have reached the final results. Please check your abstract-ID, which was sent to you in the confirmation email when you finished your online submission. If the assigned-number is not there, it indicates that the proposal is not accepted. Due to the limited capacity, we can only accept 89 Paper Presentations, which is finalized by the scores. The remaining qualified papers are suggested to switch to Poster Presentation Section. If you do not want to accept this arrangement, please let us know. We will waive this arrangement in accordance with your decision. Again, we apologize that there is no enough time to present all the papers. Please understand.

All conference presenters must complete the online registration by May 31 to ensure your presentation session.

We also warmly welcome those who have no submission but are still interested in participating in the conference. Please complete the online registration before the conference begins. There is no on-site payment registration during the conference. Your registration card is vital for the admission to the conference.

Please do not hesitate to contact us for any further assistance you may need.

Organizing Committee of APSMER2019

1. Paper Presentation: (88) each one 30 minutes including Q & A
